5.4 On Other Desks

Mount The Mounting Bracket

By The Leg

CAUTION!
The Thickness of Tabletop Must Exceed 18 mm.

Mount The Mounting Bracket

Before installing, check the space between the desk legs and frame. If the legs or frame block the side of the mounting bracket, use the mounting bracket together with the adapter bracket (see Step 5.3 for details). If there is enough clearance, you can install with the mounting bracket alone.

5.1 On Dezctop Revon Desks | 5.2 On Dezctop Bifrost Elite / Pro and General Standing Desks | 5.3 On Dezctop Bifrost 160 / 120 Desks | 5.4 On Other Desks

Position The Mounting Bracket

Position the mounting bracket appropriately by using the bracket or the alignment paper.

5mm Hex Key X 1

Extend The PC Mount

CAUTION!
Hold The Top Support To Stop Suddenly Falling While Pulling The Indexing Plunger.

Put The PC In

Put The PC In

Some PC cases have bottom rear filter would cause the cases uneven.

Place the EVA foam between the PC case And the PC mount’s base to fix .

Lower The Top Support

CAUTION!

Hold The Top Support For Slowly Lowering While Pulling The Indexing Plunger .

Make sure the PC mount closely fit the PC, both top and tight side.

6.1 Prepare The PC Mount
6.2 Put The PC In The PC Mount
6.3 Place The PC Mount Into The Mounting Bracket

Assemble The Side Support

Tighten All Screws

Make sure the PC mount closely fit the PC from all sides. And then tighten all screws.

6.3 Place The PC Mount Into The Mounting Bracket

For All Desks

For All Desks

The PC mount can be moved forward up to 50mm that provide more space to connect cables of the PC.

6.3 Place The PC Mount Into The Mounting Bracket

For All Desks

Tighten the screws to keep the PC mount steady while you finalize the position.

Set The Height Limit

For safety, keep the bottom of the PC mount off the ground. Set the desk's lowest height limit based on the height of the PC mount and your PC case. This ensures the desk won't press against the PC case when lowering.

Recommended Height

49cm
(19..3")

Bifrost Revon Desk :
Height of Desktop

>69cm
(27.2")

Bifrost Elite/ Pro Desks :
Height of Desktop

>69cm
(27.2")

Bifrost 160/ 120 Desks :
Height of Desktop

PASS

If you use the compatible largest PC case, please check the recommended height of the desktop.

You can lower the desk further if your PC case is smaller in size.

Recommended Height

If you use the compatible largest PC case, please check the recommended height under the tabletop (since the tabletop’s thickness are variable).

You can lower the desk further if your PC case is smaller in size.
